### PROFILE

Skilled in HTML, CSS, JavaScript, React.js, and Git/GitHub, I specialize in crafting captivating and responsive web designs. With a strong foundation in front-end development, I focus on creating user-friendly, high-performance interfaces that enhance user experience. My expertise includes building interactive web applications, optimizing performance, and ensuring cross-browser compatibility. Passionate about modern web technologies, I continuously strive to improve design aesthetics and functionality.

### WORK EXPERIENCE

#### Webcom Systems Pty Ltd, Mohali

JUN 2024 - PRESENT

##### XchangeOn - Trading ([link](#))

- Designed and developed a visually consistent, responsive interface using React.js and Sass, featuring a clean dashboard layout, intuitive authentication screens, and adaptive designs tailored for all screen sizes.
- Optimized layout structure and spacing using modern CSS methodologies (Flexbox, Grid, Sass), resulting in a cleaner and more intuitive user experience.
- Technologies used: React.js for component development, optimized styling with SCSS, integrated React Icons and Bootstrap for UI enhancements, and GitHub for version control.

##### Xauras - Crypto ([link](#))

- Designed and developed the landing page for the Xauras crypto trading platform using a modern purple-themed aesthetic. Every component and section is thoughtfully crafted, with meticulous attention to spacing, typography, and overall visual appeal.
- Ensured the hero, features, and social media sections are professionally designed with cohesive UI/UX standards.

##### Everest Remit - Remittance ([link](#))

- Developed a responsive and visually appealing landing page for a Remittance platform using HTML, CSS, Bootstrap and JavaScript.
- Key components include interactive navigation, and informative sections on Hero, How It Works, and About us

#### Social Media
